Live Photography

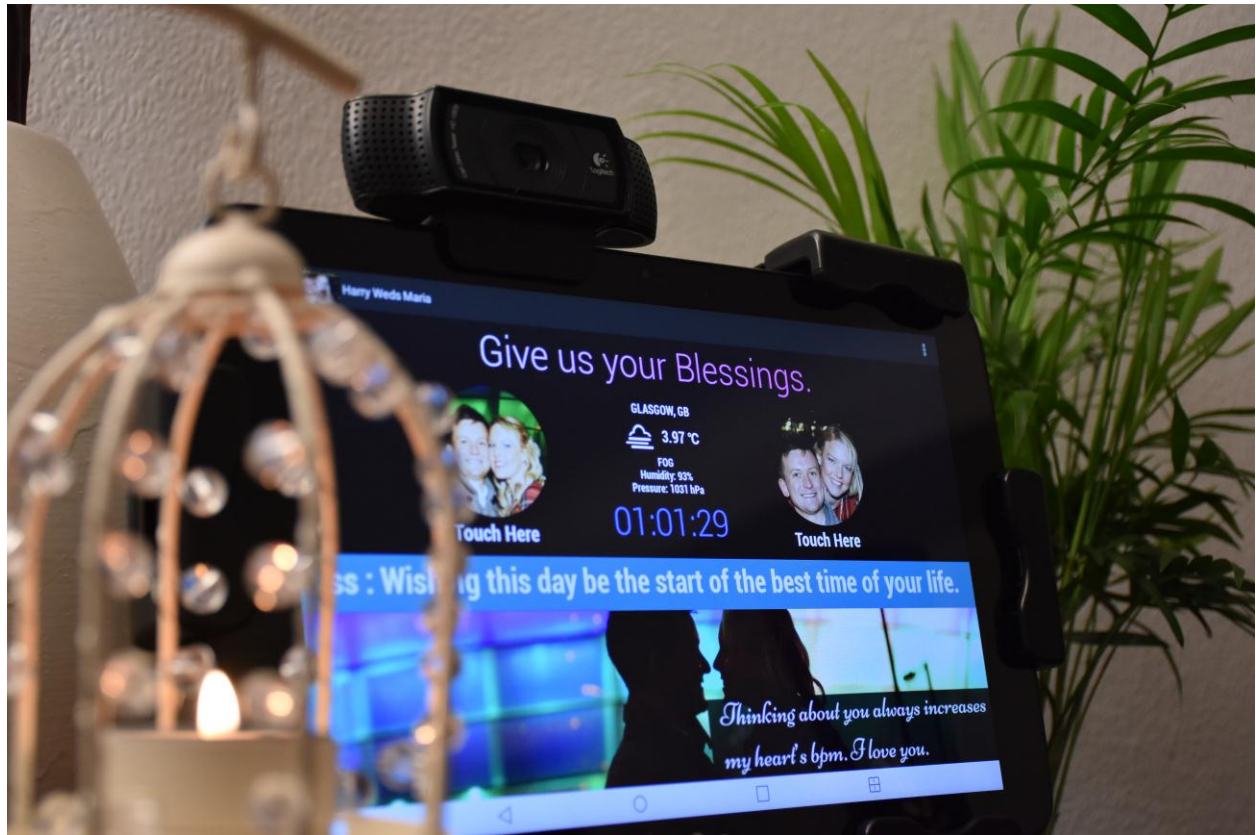

(Let audience also see through the lens)

Photography is a beautiful art, we are adding new opportunity to expand its possibilities and more people enjoy it instantly with maximum impact. For any event, photography is essential and everyone wait to see the photos printed. Imagine if you are in a wedding take a snap with your DSLR, do some relevant editing and may be add a filter to make it even more beautiful and project it to a bigger screen or a video wall with few touches in few minutes. Yes that exists and many of our partners are doing it now and receives great responses.
